WINE

As you all know, Remedy wants to provide you with beautiful things and beautiful experiences but are aware you are not shy of a great deal either. Our wines represent possibly the most value for money, you can find on a wine list. We are a business & therefore we do need to make a profit. Most restaurants will bang a percentage margin on their wines - result? - the better, top end wines end up so expensive that they run the risk of being out of reach to most wine lovers. Not us though, as we use a cash margin approach & take a similar amount on all our bottles. So, basically, throw a few more quid into the wine budget & you will be rewarded with some of the best value drinking seen in the area. Well, here goes **Happy & Prosperous Drinking!**
