

Staying safe at Salvo's - just some of the measures we are taking

- We are operating at a much reduced capacity to ensure social distancing between tables and to allow the staff and customers to move around the building whilst maintaining social distancing. We will be continuing to offer our collection service for customers who may prefer to dine at home or cannot get a table at their preferred time in the restaurant
- Table sizes are currently limited to a maximum of 6 guests which Government guidance stipulates can only consist of members from upto 2 households or bubbles. We request that you follow these rules please
- There are additional cleaning and sanitising systems in place and hand sanitiser stations are in place at both the entrance to the restaurant and also after leaving the toilet areas at the doorway back into the restaurant
- Bookings are staggered to reduce the number of guests arriving at any one time – please be as punctual as possible to assist with this. The bar area will currently not be available to use before or following your meal. When confirming your reservation we may request a slight alteration by a few minutes to your arrival time to ensure our bookings are staggered
- Table reservations are essential for the time being. Please book at salvos.co.uk or give us a call on 0113 2755017. Please note however we have reduced the size of our menus a little and have reduced staffing to allow for social distancing – the easiest way to book is via the website as there are not always staff present to answer the phone
- Face visors and masks are provided for the staff to use when moving around tables
- Contactless card payment or apple/google/Samsung pay is preferred to reduce contact. A 10% gratuity will be added onto the bill as we are trying to not accept cash payments or tips at this time. Please mention if you would prefer this to not be added onto your bill
- Menus can be accessed via QR codes on a mobile device. If you would prefer a disposable paper menu please ask for one

- Most of our pasta dishes are finished with a garnish of pecorino or parmesan depending on the dish. Individual condiments are available such as sachets of salt/pepper will replace pepper and salt mills. We also have small individual bottles of olive oil, chilli oil or balsamic along with individual sachets of grana padana cheese (there may be a small cost for these)
- The toilets will be in use for the public with increased cleaning levels. We will be trying to implement a one at a time limit to the downstairs disabled access toilet and the same for the mens/ladies toilets upstairs. A member of staff should be able to advise if they are in use. A contactless sanitiser station will be placed at the doorway leading to both toilet options for guests to use prior to, and returning from the toilet areas before re-entering the restaurant
- All members of our team are trained in following handwashing and sanitising rules and will be wearing disposable gloves when clearing tables. The staff also complete wellness checks daily using temperature scans and anyone found to be displaying symptoms however mild will be excluded from the workplace
- We request that if you or any of your guests are not feeling well or displaying any of the key Covid symptoms, however mild, of a temperature, dry persistent cough, or loss of taste or smell cancel their booking and seek NHS guidance

We will be trying to operate as normally as possible and would like to reassure guests of the steps that we are taking before joining us in the restaurant as things may seem a little strange at first. We will of course still be serving the same delicious food and cannot wait to welcome everyone back to Salvo's

John and Gip Dammone
