

Staying safe at Salvo's after 19th July

We are ready and raring to go for a summer to remember however despite national restrictions being lifted we feel it is necessary to keep some of the safety measures that we have put in place. Both for the safety of our team and our customers until we feel it is safe to relax these. These include -

- Hand sanitiser will still be available at the entrance/exit and at the door back into the restaurant from the toilets
- Table service will remain for all meals, drinks at bar tables and for payments
- Our team take regular lateral flow tests
- Our team will continue to wear masks and we encourage guests to continue to wear face coverings on arrival, when leaving and whilst moving around the venue.
- As with pre-pandemic times we have a limit on the size of bookings that we take which is 10 guests on a weekday and 8 guests on a weekend. We are unable to take multiple bookings for a party and move tables to be next to each other as the layout of the restaurant is fixed. For larger bookings we have a private dining room which seats between 15 and 24 guests.
- Contactless card payment or apple/google/Samsung pay is preferred to reduce contact. A 10% gratuity will be added onto the bill as most payments are contactless now where there is no option to leave a gratuity. Please mention if you would prefer this to not be added onto your bill.
- We will be continuing to offer our collection service for customers who may prefer to dine at home or cannot get a table at their preferred time.
- Bookings are still staggered to ensure social distancing, if you are to arrive early for your reservation and your table is not quite ready, you may be requested to come back closer to your reservation time if no bar tables are available
- Table reservations can be made online at salvos.co.uk or you can call us on 0113 2755017. The phone is not manned at all times, so online reservations will ensure you get your preferred date and time.
- Please do not enter if you have COVID symptoms, have been asked to isolate or have come into contact with someone who has tested positive

Thankyou to everyone for their continued support
Love the Salvo's family
